Fire Protection Specialists

PROFILE

Who is AEFS?

The AEFS Group is a leading company in the fire protection industry. Our expertise in all aspects of the fire protection industry provides our clients with the peace of mind knowing that their assets are being maintained to industry best practice.

AEFS services a diverse range of customers include prisons, councils, schools, government departments, high-rise residential complexes, and heavy industry.

AEFS ensures that we keep up to date with any legislative changes that affect our clients. As such we constantly monitor The Building Practitioners Board, Fire Protection Australia, Standards Australia and Work-safe.

Our Team

The AEFS team consists of dedicated and talented people who are able to provide unique service solutions. Our dedication to innovation, quality and safety are shared by all of our staff.

Professional Training is regularly performed to ensure the latest techniques, skills and safety standards are maintained.

Safety

The theme of safety dominates all of AEFS's policies and actions. Proactive individual involvement, personal responsibility, and continuous improvement are expected of all employees, clients and subcontractors. We believe that by adopting this approach, a safe working environment can be achieved to the satisfaction and benefit of all.

The Environment

AEFS is committed to providing a healthy, safe and sustainable workplace environment. We actively encourage a culture of environmental awareness within AEFS, which assists us to reduce both our own and our client's environmental footprint.
